

There is no second highest.

1

Chartered Accountants. The spirit of being number one.

There is a spirit within us that drives us to be the best we can possibly be. To take on great challenges. And reap exceptional rewards. As Chartered Accountants we celebrate this spirit. There is no more challenging accounting program than the Chartered Accountants Program. And no more rewarding designation. For Chartered Accountants, and for the

organisations they serve. Chartered Accountants bring a singular capacity for higher order thinking based on a rigorous understanding of what lies at the core of any business. The numbers. And they bring a truly global perspective. The Institute of Chartered Accountants is the only Australian member of the Global Accounting Alliance –

an elite collective of over 750,000 of the best qualified accountants worldwide. So when considering accountants for your business or a program for your graduates, consider those who aim highest. Chartered Accountants.
